Design Engineer

Description

Ameriscan Design, an SCI company, is an American-based manufacturing company that specializes in providing high-performance furniture to the restaurant, educational, hospitality, healthcare, corporate, and gambling industries is hiring a Design Engineer.

This position is primarily responsible for designing and drawing (Microvellum, AutoCAD & Inventor) essential items that will be manufactured by SCI shop employees. Is also responsible for ordering materials for projects, contacting customers and contractors to coordinate what SCI products will integrate into existing dimensions and site conditions, and overseeing production and packaging of the final product by performing the following duties.

Responsibilities

Core duties and responsibilities include the following:

- Participate in Pre-Order meeting with a Customer Service Representative.
- Compare orders to the layout provided to ensure accuracy and completeness.
- Order non-stocked materials necessary for projects through purchasing.
- Draws/models in Microvellum, AutoCAD & Inventor production design drawings to SCI Standard Design Procedures.
- Program of parts for CNC machines (training is done on-site, some experience a plus).
- Cross collaborates with Project Managers and Manufacturing personnel.
- Responsible for updating the bill of material and descriptions before issuing it to the floor.
- Prepares construction and installation drawings.
- Respond to project changes quickly and efficiently.
- Prioritize effectively to maximize time.
- Strong ability to work under pressure and meet deadlines.
- Ability to work independently and as part of a team in a fast-paced environment.
- Good attitude and strong work ethic is a MUST!
- 8 – 10-hour shift depending on workload and project timelines.
- All other duties as assigned.
