Millwork Carpenter

Description

Ameriscan Designs is an American-based millwork construction company that specializes in providing architectural millwork, custom cabinetry, plastic laminates, complex solid surface fabrication, architectural doors and frames as well as metals, glass, stone and upholstery. With more than 30 years in the business, Ameriscan has earned its reputation as one of the nation's top suppliers of high-quality custom commercial and hospitality millwork and furniture. The company has been experiencing steady sales growth due to superior quality and world-class customer service. Our manufacturing philosophy is to build everything on site, so that we may control quality and offer the shortest lead-time in the industry.

In this role, you will be responsible for crafting and assembling high-quality custom millwork components. Your craftsmanship will contribute directly to the creation of bespoke solutions that meet our exacting standards and client expectations.

Responsibilities

- Construct and assemble custom millwork components, including cabinets, reception desks, trim, and other wood products, according to detailed architectural blueprints and shop drawings.
- Utilize woodworking tools and machinery, such as shapers, sanders, table saws, routers, up-cut saws, and jointers, ensuring accurate setup and safe operation.
- Prepare and finish surfaces with precision, including sanding and applying veneers, stains, and other finishing materials as needed.
- Interpret shop drawings and architectural prints to accurately measure and cut materials, adhering to detailed specifications.
- Organize and manage multiple projects, ensuring timely completion while maintaining high standards of quality and craftsmanship.
- Demonstrate strong problem-solving skills to adapt and address any issues that arise during the construction process.
- Maintain a clean and professional work environment, including proper tool and machinery upkeep.
- Handle lumber and resources safely and efficiently, demonstrating physical capability for lifting and working with materials.
- Ensure adherence to safety protocols and best practices for woodworking and shop operations.
- Collaborate effectively with team members, including designers, project managers, and other carpenters, to achieve project goals.
- Provide insights and recommendations for design improvements and construction techniques as needed.
- All other duties as assigned.

Qualifications

- High School diploma or GED; additional training or certification in carpentry or a related field is preferred with 3+ years of experience in custom millwork, cabinetry, or a related carpentry field.
