Maxx Seating is a proud SCI company.

# taking seating to the next level.

Maxx Seating is an American manufacturer with over 200,000 sq. ft. of manufacturing space focused on creating products of the highest comfort and quality.

With our team of dedicated and talented employees, Maxx Seating provides a customer experience that is unique to the industry. It is this commitment to service that keeps our customers coming back. Maxx Seating is reliable, responsible and customer-focused.

Maxx Seating manufactures the highest-quality performance seating for the gaming and hospitality industries. Customer satisfaction is our number one priority. Maxx Seating products combine comfort, function and innovative design.

## Gaming Seating

Maxx Seating's gaming system is meticulously designed to provide exceptional comfort for extended use.

With ergonomic seating made from superior injection-molded foam, our products provide ultimate support and comfort while maintaining lasting durability and resiliency.

A multi-disciplinary team of designers and engineers collaborate at every step of your project to ensure your products will endure even the most demanding of environments, while maintaining a sleek, polished aesthetic that will compliment any gaming space.
